Healy™ Microcurrent Frequency Device Facts

What is HEALY?

Healy™ is a small, wearable microcurrent frequency device that marries science, health, spirituality and technology to support the body, mind and spirit. Designed to help people live healthy, fulfilled and conscious lives.

- An individualized microcurrent medical device cleared by the US Food & Drug Administration as Class 2 medical equipment for local relief of acute, chronic and arthritis pain and muscle soreness due to overexertion. (More uses approved elsewhere).
- Marcus Schmieke, quantum physicist and former monk, developed Healy™ using expertise in psychology, philosophy, science and ancient spiritual practices. He's the creator of TimeWaver™, founder of the Existential Consciousness Research Institute, the Vedic Academy e.V (now ConScience e.V.) and co-founder of the Institute for Applied Consciousness Research (IACR).
- Healy World™ products are personal, wearable, *considerably* smaller and more affordable than TimeWaver devices and arrive with wristbands, electrodes and cords to connect the electrodes (Ear clamps in some countries).
- Healy works with apps downloaded onto a smartphone, linking the device with Programs containing frequencies designed to harmonize cells. *It CAN be used on people, animals, things and places.*
- Healy balances the bioenergetic field, supporting body, mind and spirit.
- Unique feature: A **quantum sensor** reads energy systems for imbalances every 10 seconds throughout the duration of a program, removing and adding appropriate frequencies to restore balance/coherence.
- 120+ Program Groups cover a wide-range of areas* offering a million frequencies for: pain, stress/anxiety, relaxation, sleep, aging, fitness, performance, stamina, regeneration, work/school, learning, memory, concentration, mental balance, wellbeing soul, beauty, skin, immune system, specific areas of the body, nerves, meridians, chakras, bioenergetic defense (EMFs), nutrition and more.
*(Program Groups included dependent on the edition/model of the device purchased).
- Unlike TimeWaver and Rife machines, Healy is a small, wearable, affordable device that anyone can learn to use with a smartphone; it does not require scheduling an in-person session with a trained practitioner.
- Provides 24-hour access to next level, holistic and comprehensive care for body, mind and spirit.

What is Frequency Specific Microcurrent?

- Background: Each cell vibrates at an optimal frequency. When that frequency is imbalanced, it can reduce wellbeing.
- Healy introduces Frequency Specific Microcurrents (FSM) to the body through a gentle electrical current to help maintain/restore wellness without drugs, surgery or pain.
 - Frequency is the rate that an electronic pulse or sound wave's produced, measured in hertz (Hz)
 - Human cells vibrate between 3-17Hz
- Healy use boosts:
 - ATP production up to 500%
 - Amino acid transport up to 40%
 - Protein synthesis up to 70%

How to Use Healy?

- Follow directions in the Manual: Charge fully (4-12 hours initially) before use, download Healy apps to iPhone or Android and connect Healy via Bluetooth. Programs are downloaded onto the smartphone.
- Select an App, Program Group, then Program. Screens provide details on use with electrodes/wristbands or Coil, allow user to increase or reduce intensity, show the duration of program and frequencies in use. Programs typically run 30-50 minutes.
- A wearable device, Healy allows for use while working, running errands, etc. The "add-on" Coil plugs into the Healy for electrode-free use. (Not an electromagnetic microcurrent, it creates a field around the device).
- Suggested use: 2 programs morning and 1 evening when using electrodes/wristbands.
- Imp: Users need to drink water before, during and after use to ensure proper connectivity and to support cellular function.

Does Healy Work Remotely?

- Yes! Healy's HealAdvisor Analyze app uses *quantum entanglement* to connect the device to a person, animal, place or thing through the quantum field.
- App requires user to input the person, animal, place or thing's information, select and run the Program.
- Through the quantum field, the device scans the person and sends balancing frequencies (like remote Reiki or prayer).

Is Healy Safe?

- Yes! The patented apps and system protocols ensure:
 - All FSM (frequency specific microcurrents) are pre-set to an exact, safe and low-energy amperage
 - EMF production is minimal; continued use of Healy further reduces its impact
 - All personal information is stored securely in the cloud – not even Healy has access to details

Can Healy Be Used with Animals?

- Yes, via frequency specific microcurrents (Animal Program) the Coil, by simply placing the Healy near an animal (it creates a toric field around the device that allows for transmission of frequencies), or using the HealAdvisor Analyze app via the quantum field/quantum entanglement.
 - It can also be used on water, plants, other “things”, even locations

What Else?

- Healy can work 3 different ways: electromagnetically with wristbands/electrodes, via toric field with Coil (available for purchase) and through quantum entanglement/field using the HealAdvisor Analyze app (available with some editions & by subscription).
- HealAdvisor app has a Search function so users can select a Program Group database, input a health concern and receive a list of Programs useful in helping harmonize the body, mind and spirit.
 - Select a Program and Healy will launch the program; “My Programs” provides a schedule for running the Programs
- Healy is creating a community of conscious customers and members working to own the moment and create a future of health, happiness and prosperity with tools/resources on:
 - How to make the most out of Healy & proven methods for use
 - Creating a successful, community-based business
 - Changing the world for the better
- Pricing: Healy World offers 5 editions of the device, each with different Program Groups included. Prices vary on edition purchased, country and available promotions. For current pricing: <https://bit.ly/HealyNP>.
- Additional Programs: Animal Program available separately. Programs Groups and upgrades from one edition to another are available for purchase. Programs developed by TimeWaver experts also available separately for purchase.

CONTRAINDICATIONS*: Per Healy World, microcurrent treatment must not be performed when metallic foreign bodies are in the area of treatment; pacemakers or implanted defibrillators are present; bleeding or if embolism are present. Not for use by pregnant women. Not for use by those with epilepsy.

**While the microcurrent aspect of Healy is contraindicated for the above, individuals may be able to use the Coil (purchased separately), run the Healy without Coil or electrodes, or use the HealAdvisor Analyze app which works through the quantum field to scan and sends frequencies, to enjoy the benefits of the Healy. Please check with a healthcare provider or contact Healy Support for more info.*

RETURN POLICY: 14 days.
